

NYOMAN TRI DARMA WAHYUDI

triidarma06@gmail.com | +6281333486847 | linkedin.com/in/tridharmaaa | github.com/tridarma6

Web Developer undergraduate with hands-on experience in full-stack web development using Laravel, React, Node.js and Inertia.js. Skilled in developing responsive web applications, REST API integration, backend logic, and MySQL/PostgreSQL database management. Strong problem-solving skills, attention to detail, and experience collaborating in team-based projects. Seeking a Web Developer entry-level position to contribute to scalable and maintainable web solutions.

EDUCATION

Universitas Udayana

Undergraduate Information Technology Student
GPA: 3.95 / 4.00 (4th semester)

Aug 2023 - Present

Asah led by Dicoding in association with Accenture

Cohort React & Backend with AI
Average Score: 93.81 / 100.00

Aug 2025 - Present

SMA Negeri 1 Singaraja

Graduate Mathematics and Sciences Student
Average Score: 92.73 / 100.00

July 2019 - May 2022

PROJECT EXPERIENCE

Backend Developer, Prevo

Nov - Dec 2025

- Built a secure and scalable backend using Express.js, managing event registration logic, user authentication, RESTful APIs, database integration, and AI integration.

Junior Frontend Developer, Website ITCC HMTI Udayana

April 2024 - Nov 2025

- Built a responsive and user-friendly interface using Laravel, React, and Tailwind CSS to support event registration and deliver accessible competition information.

Frontend Developer, Website BUILD IT HMTI Udayana

June 2024

- Build a functional platform using Laravel, React, and Inertia.js, featuring user and admin dashboards for managing training event information.

Full Stack Developer, GOST Email Encryption

June 2025

- Developed a web-based email encryption application using the GOST encryption algorithm, utilizing React for the frontend and Flask (Python) for the backend.

Full Stack Developer, Website Bali IT Solusi

June 2024

- Developed an e-commerce website for Bali IT Solusi using Laravel, Inertia.js, and React to build product management, user authentication, and dashboard features.

Mobile Developer, Android Application: Notelt

June 2025

- Developed Notelt, an Android note-taking application using Kotlin, featuring add, edit, delete, favorite, hidden notes secured with a PIN, and darkmode features.

ORGANIZATION EXPERIENCE

Chairman of the BUILD IT 2025 Committee

June - Oct 2025

- Leading the planning and execution of training programs, as well as coordinating with divisions to ensure successful event implementation.
